GitHub: github.com/lizarawat

Email: rawatliza36@gmail.com
Mobile: +91-7678628143

Skills Summary

Languages: Python, C, C++, Java, MySQL
Machine Learning: Linear Regression, Random Forest, Feature Engineering, Model Evaluation, Outlier Detection
Data Analysis: Data Cleaning, Exploratory Data Analysis, Statistical Analysis, Data Visualization
Tools & Frameworks: Github, FastAPI, Flask, Numpy, Pandas, Scikit-learn, Matplotlib, Seaborn, SciPy
Core Competencies: Data Pipelines, REST APIs, System Architecture, Algorithm Optimization, NLP & LLMs
Soft Skills: Problem-Solving, Time Management, Multi-tasking, Self-Learning

Projects

- TradeCraft | Real-Time Quantitative Equity Analytics Platform | Github | Live Demo** Jun 2026
- Programmed a real-time quantitative trading analytics platform **tracking 20+ NSE blue-chip equities**, simulating algorithmic paper trading strategies across ₹10 Lakhs+ virtual capital.
 - Architected low-latency data pipelines streaming intraday OHLC price feeds, formulating pandas-ta **feature engineering scripts for RSI/MACD technical indicators** and integrating a **FinBERT Sentiment Analysis model**.
 - Achieved **sub-200ms WebSocket streaming latency** for live market ticker updates, automating real-time trade signal generation and portfolio yield tracking **(+37.29% net P&L return)**.
 - Tech Stack:** Python, Pandas, FinBERT (NLP), React.js, WebSockets, Yahoo Finance API.
- DebateMind | AI Argument Scoring & NLP Evaluation Engine | GitHub | Live Demo** Apr 2026
- Developed a full-stack and interactive AI debate evaluation platform utilizing **Gemini 2.5 Flash LLM** to automate argument scoring, dynamic rebuttals, and interactive knowledge battles.
 - Constructed a **serverless REST API** proxying LLM tool-calling outputs **across 12+ debate topics**, designing a Natural Language Processing scoring engine on 0–100 scale backed by a **PostgreSQL database with RLS security policies**.
 - Implemented real-time **automated AI judging workflows**, dynamic rebuttals, and competitive user rank tracking across **8 tiered leaderboards**.
 - Tech Stack:** Gemini 2.5 Flash (LLM), React.js, TypeScript, PostgreSQL, Structured Outputs, Tailwind CSS.
- Census 2011 | Demographic EDA & Analytics Dashboard | Github | Link** Apr 2026
- Rendered an **Exploratory Data Analysis platform** using **Python Libraries** to evaluate demographic disparities, literacy trends, and workforce distribution across national census datasets.
 - Processed **1.21B+ census population records** across **35 states/UTs and 1,344 districts** using Pandas and NumPy, quantifying socio-economic correlations via Seaborn heatmaps and statistical modeling.
 - Deployed an interactive Streamlit analytics dashboard including a **67.8% average literacy rate** featuring dynamic top-N filtering across **10+ key demographic metrics**, optimizing query execution for multi-dimensional data exploration.
 - Tech Stack:** Python, Pandas, NumPy, Matplotlib, Seaborn, Streamlit, Plotly.

Training

- Data Structures & Graph Data Analytics | Lovely Professional University** Jun 2026
- Established a robust foundation in computational data structures, algorithmic complexity analysis, and graph data processing for high-performance computing.
 - Mastered 6 core DSA modules covering **Big-O analysis (O(n), O(logn))**, Dynamic Programming, and Greedy models, and applied advanced graph structures such as **Min/Max Heaps, Prim's/Kruskal's MST & hash collision resolution**.
 - Collaborated with a team to develop NetRoutex, a real-time network simulator visualizing 4 graph algorithms such as **Dijkstra, Bellman-Ford, Breadth First Search, Depth First Search** for packet path optimization.

Certificates

- MongoDB Certified Database Administrator Path | [MongoDB](#) Sep 2026
- Oracle Cloud Infrastructure AI Foundations Associate | [Oracle](#) Jul 2026
- Oracle Data Platform 2025 Certified Foundations Associate | [Oracle](#) May 2026
- Complete Data Science, ML, DL & NLP Bootcamp | [Udemy](#) May 2026
- GEN AI NASSCOM - SFJ Skill Development Program | [NASSCOM](#) Feb 2026

Achievements

- Solved **350+ Data Structures Algorithms problems** across LeetCode & GeeksforGeeks Present
- Qualified for **Pre-Finals at the AlgoArena Hackathon** hosted on TheEduCode by **Eduniketan Private Limited**. Apr 2026
- Organizing Member in Ensemble 2025** by **Untangle & Arts/Event Management Committee** Feb 2025

Education

- Lovely Professional University** Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; CGPA: 8.85 Aug 2024 – Present
- Delhi Public School Ranipur** Haridwar, Uttarakhand
Intermediate; Percentage: 91.6% Apr 2023 – May 2024
- Glocal School Mirzapur** Saharanpur, Uttar Pradesh
Matriculation; Percentage: 93.6% Apr 2021 – May 2022
